Profile

Computer Science and Engineering undergraduate at the University of Moratuwa with practical experience in full-stack development, data structures, databases, and system design. Passionate about building efficient software and translating complex, real-world problems into clean, reliable solutions. Eager to learn, collaborate, and contribute to impactful software development and research projects.

Education

University of Moratuwa

B.Sc. Eng. in Computer Science and Engineering

- CGPA (through Semester 4): 3.22/4.00

Sri Lanka

May 2024–Present

Paddiruppu National School, Kaluwanchikuddy

G.C.E. Advanced Level, Physical Science Stream

- Three A passes; Z-score: 2.1146 ; Island rank-774

Sri Lanka

Aug 2020–Jan 2023

Projects

Multi-Tenant Resource Sharing Platform

Semester 5 Software Engineering Project — Ongoing | Repo

Technologies: React.js, FastAPI, PostgreSQL, Redis, Docker, OAuth 2.0, WebSockets, Swagger/OpenAPI

- Developing a microservices-based platform for university communities with secure authentication, multi-tenant resource management, real-time booking and notifications, and a points-based borrowing system.

Uni-Find — University Lost & Found Platform

Ongoing | Repo

Technologies: React.js, FastAPI, PostgreSQL, SQLAlchemy, JWT, Docker, Swagger/OpenAPI

- Developing a responsive full-stack application that lets users report, search, and manage lost-and-found listings and communicate securely with item owners and finders.

Smart Banking Management System

Semester 3 Database Systems Project | Repo

Technologies: Python, FastAPI, React, PostgreSQL, AWS EC2

- Built a full-stack banking system in a five-member team, featuring secure authentication, transaction processing, fixed deposits, automated reporting, and separate customer and agent portals.

Industrial Predictive Maintenance System

Semester 4 Software Engineering Project | Repo

Technologies: Python, SciPy, Apache Kafka, Next.js, Chart.js, Docker, Kubernetes, MLflow, Grafana, ELK Stack, Raspberry Pi/ESP32

- Developed a scalable IoT pipeline for sensor-data collection, edge processing, real-time streaming, machine-failure prediction, and web-based visualization of operational insights.

Volunteering Experience

CSE Careers Fair 2026

2026

Logistics Committee Member

- Supported event logistics and on-ground coordination.

Education Incentive Association, Batticaloa

Mar 2023–Dec 2023

Volunteer Teacher

- Taught Physics and Chemistry to students at BT/Paddiruppu National School Kaluwanchikuddy.

Hit the Ground Event

2026

Design Committee Member

- Supported event logistics and on-ground coordination.

IESL RoboGames

2026

Logistics Committee Member

- Supported participant coordination, event logistics, and on-site operations during the robotics competition.

Technical Skills

Programming Languages	Python, C, C++, JavaScript, HTML, CSS, Java
Frameworks	React, Node.js, FastAPI
Databases	PostgreSQL, MySQL
Tools & Technologies	Git, REST APIs, Docker, Apache Kafka, Kubernetes

Extracurricular Activities

Fastest Arm Competition	2024
<i>Champion — University of Moratuwa</i>	
AmizhKaro Chess Competition	2025
<i>Participant — University of Moratuwa</i>	

Soft Skills

Teamwork
Communication
Problem-solving
Adaptability
Time management

Additional Information

Languages: English (professional working proficiency), Sinhala (intermediate proficiency), Tamil (bilingual proficiency)
